

# J Query

29/09/2023

What is J Query ?:

→ The Javascript Library that will prevent our fingers from breaking.

→ 1000's of JS libraries, but Jquery is top.

DOM :-

→ document.querySelector("h1");

whereas in Jquery :-

→ jQuery("h1");

(or)

→ \$("h1");

Make javascript much more easier to read and Debug.

How to incorporate jQuery into websites :-

as like bootstrap, we can download or add it using CDN.

→ most priority use google CDN.

refer Course resources.

CDN → <https://developer.google.com/speed/library/#jquery>.
